Wellness, Spa & Recreation Facilities and Services

Spa & Wellness Centre

Using the finest marine botanical and natural products, our spa therapists who are professionally trained at the world-renowned Banyan Tree Spa Academies in Thailand and Indonesia, deliver indulging treatments that inspire top-to-toe renewal. In addition to six treatment rooms, each with its own individual changing room, the world-class award-winning Spa features a vast Hydro Therapy Jets Pool, Sauna & Hammam. Guests who are looking for an escape may seek our comprehensive wellness retreats available during their stay in Mauritius.

Beauty Salon

A complete selection of pampering hand, foot, facial, hair therapies and treatments that make use of homemade natural ingredients and other carefully selected premium products, as well as nail arts & professional make-up, is delivered by our beauty therapists.

Water Sports and Recreation Centre

Sailing, laser sailboat, kayaks, stand-up paddle boards, pedalos, water-skis and glass bottom boat, including group snorkelling, are offered to guests free of charge. Small game fishing, private snorkelling, private water-skiing, sunset cruise trips, Catamaran cruises are also available. On land, guests can partake in culture-enriching activities such as Mauritian cooking classes, table tennis, billiard and family recreational games area.

Two Resort Pools

Situated at the centre of the resort, the infinity edge Lap Pool (temperature-controlled in Mauritian winter time), with its natural sanitization, is both eco-friendly and gentle to the skin while the Lagoon Pool, with its unique freshwater natural-looking beach shore layout and sandy bottom on one side, presents a delightful alternative to swimmers.

Gymnasium, Yoga, Meditation, Tai Chi & Aqua Gym

The indoor gym is equipped with state of the art exercise equipment, including a kinesis machine. Group classes and personal training sessions are also available. Guests who prefer outdoor activities may opt for yoga, meditation and Tai Chi classes on the beach, as well as Aqua Gym.

Library

With a phenomenal view of the resort's main facilities, including the ocean, our library features a variety of books, magazines, newspapers, and board games.

The Gallery

Guests can recreate the local experience at home with quality Mauritian handicraft, resort apparel and signature spa amenities.

Kids' Corner

Spend some quality time with your children and engage in exciting activities with them at our Kids Corner (supervised at times).

Dining Facilities and Services

SYLEA

European Cuisines in Stylish Elegance

Set in the beautiful gardens at the epicentre of the resort, Sylea enchants with its outstanding European cuisines, stylish elegance and refined service, which together make a rare combination of unique ambiance.

ORYZA

Enchanting Asian Cuisines

For a unique alfresco dining experience, Oryza welcomes you to embark on a tantalising journey of Asian flavours including Chinese fusion, as well as a variety of Japanese, Thai, Indonesian and North Indian specialities.

PASSION
CREOLE

Lunch-centric Restaurant & Bar

With its sandy floor, natural seawater pool and swim-up bar, Passion Creole uniquely recreates the wonderful feel of a Mauritian beach. Indulge in delicious Creole delicacies and international favourites with a refreshing choice of seating in the pool with feet immersed in cool water or by the poolside with feet rested on the dry sand.

CRUSO ON
THE BEACH

Beachfront Rustic & Seafood

Cruso on the Beach is our beachfront rustic restaurant which welcomes you to discover our exotic seafood specialities. Set directly on the sandy beach overlooking the ocean, enjoy the best that the sea has to offer.

SUAR

Karaoke & Bar Lounge

Perfect for a fun gathering among family and friends or an informal meeting, the Suar Karaoke & Bar Lounge is set in a most elegant and private atmosphere, and features a walk-in wine cellar.

Private Dining

Sura Private Dining offers an intimate and exclusive setting for tailor-made boardroom meetings and corporate gatherings or private dining events.

IN-SUITE DINING

For your ultimate convenience

Order your breakfast, lunch, dinner or light snacks in the comfort and privacy of your luxury Suite or Villa at your greatest convenience.

DESTINATION
DINING

Enchanting culinary adventures

Have a romantic beach dinner under the stars or by the poolside in one of our private cabanas. With a private chef and waiter, our Destination Dining offers a once-in-a-lifetime setting for romance and culinary highs.

Preserving the island's pristine beauty

The protection of the environment is a central concern which implicates all of us as citizens of the World. The property was constructed and built with ecological features at its heart. The resort has been putting in place actions to diligently manage its resources and reduce waste. Below is a list of some of the actions taken:

Reverse Osmosis Desalination Plant

In order to reduce the consumption of fresh water, sea water is extracted to produce pure drinking water. Half of it is used for the bottling system while the other half goes towards the hotel operations. The bottling system consists of filter elements, a balance carbonator, cooler and filler taps to produce either still or sparkling water. The still water filler has 20 fillers which can fill 20 bottles at a time. With this practice, the resort is able to sustainably produce its own water.

Eco-friendly Pools

Situated at the centre of the resort, the Infinity lap pool is naturally sanitized, making it both eco-friendly and gentle to the skin, while the Lagoon pool with its natural-looking sandy shore, uses seawater and greatly saves on the hotel's fresh water consumption. All 34 private pools within the resort are also naturally sanitized.

Solar Water Heating

Every luxury suite at the resort is equipped with solar panels for water heating. In order to be more energy efficient, boilers are being gradually replaced by solar panels in an effort to promote the use of natural sources of energy and thus help the planet in the fight against global warming.

Energy-saving Sensors

All public area restrooms within the resort are equipped with presence indicator sensors, while pantries are equipped with door sensors so that the resort can save more on energy. As for air-conditioning in suites, it switches off automatically when sliding doors are opened. The resort also uses economic LED and solar lighting.

Compost for Plants

The resort has its own composting system whereby dead leaves are collected and used for compost. This enables the plants to grow healthily and naturally.

Greywater Irrigation

Saving on fresh water by using greywater from the resort's wastewaters for the irrigation of plants in the resort can positively impact the environment. It also has a broader community benefit in reducing demands on public water supply. By reducing the amount of wastewater entering sewers, the hotel does its best to save the ocean from excess wastewater.

Indigenous Plants

The majority of plants on the hotel's ground are indigenous to Mauritius. These plants, once they are established, require less water. Indigenous plants also have a positive impact on the ecosystem of the island.
